

Linde Werdelin launches two limited series of the 3 Timer: the 3-Timer Racing

LINDE WERDELIN, together with its partner E'collezione in Singapore, are pleased to announce the launch of a special edition - the **3-Timer Racing** series. Based on LW's 3-Timer GMT watch, the launch of the special edition coincides with the Grand Prix in Singapore. Whilst keeping all the signature details of the LW 3-Timer this new series has the model name 'Racing' engraved on the case-back and is available in two colour variations of red and yellow limited to nine (9) pieces for each colour.

As the most refined of Linde Werdelin watches, every part of the 3-Timer case is 'toned down' to ensure legibility and facilitate keeping track of the three time zones. Starting from the pattern of the dial to the thinner hands and smaller indexes, bearing the minimum luminous material possible, all 3-Timer features are designed to have a pleasing effect to the eye.

The indexes are placed closer to the edge of the dial while the bidirectional 24-hour bezel is polished on the facets while the red or yellow 24-hour markings correspond to the colour details on the case screws and calfskin straps.

Like all Linde Werdelin watches, the 3-Timer Racing can carry both The Rock – extreme ski instrument – and The Reef – dive instrument – maximising the user's sporting moments.

The 3-Timer Racing is limited to a series of 9 pieces for each colour and retails at **SGD10,800** or **€5,280** each.

The 3-Timer Racing series are available from
www.ecollezione.com
and soon at LindeWerdelin.com

Notes to the Editor

Launched in 2006 by Morten Linde and Jorn Werdelin, LINDE WERDELIN watches with attachable dive and ski instruments have redefined the world of luxury sports watches by bringing together the very best of Swiss watch making and craftsmanship combined with innovative Danish design and avant-garde technology.

By combining both analogue and digital technologies, LINDE WERDELIN, produces and manufactures the ultimate sports watches and precision instruments, The Rock and The Reef instruments securely clip on top of the watch to amplify the sporting experience whether in the mountains or in the sea respectively.

LINDE WERDELIN specialises in producing small watch series up to 222 for each series.
